

# CHAMBER WEBSITE BANNER ADS

**Do not miss this opportunity to reach those people who are using our website to research their travel to Kremmling.**

In 2005 we received over **62,000** unique visitors to the Chamber web site. As we review the visitor numbers over the last few years, we see that fewer people are calling the Chamber for visitor information, and instead they are doing their vacation research on-line. This makes it even more important to have a web site that is appealing to the visitors, easy to navigate and is constantly changing with new information.

We have also re-designed the website giving it a fresh new look, we invite you to check it out at [www.kremmlingchamber.com](http://www.kremmlingchamber.com).
